

ALZHEIMER'S DISEASE AND DEMENTIA CARE SEMINAR

A Prerequisite for Certified Dementia Practitioners (CDP) Certification
In Collaboration with the National Council of Certified Dementia
Practitioners (NCCDP)

DEMENTIA
CORPORATION

WEDNESDAY, OCTOBER 16, 2024 | 8.00AM - 5.00PM | ONLINE

SEMINAR OVERVIEW

The Alzheimer's Disease and Dementia Care Seminar is a comprehensive training program required for obtaining the Certified Dementia Practitioners (CDP) certification. Designed for healthcare professionals, caregivers, and anyone working in dementia care, this seminar provides up-to-date knowledge and essential skills to improve dementia care.

WHY ATTEND?

- Fulfill the CDP certification prerequisite.
- Learn effective dementia care techniques.
- Gain insights from leading experts in the field.
- Connect and network with fellow professionals.

KEY TOPICS COVERED

- 1. Understanding Alzheimer's and Dementia:**
Learn about the various types, stages, and symptoms of dementia, focusing on best practices for care.
- 2. Effective Communication Strategies:**
Techniques for communicating compassionately with dementia patients and managing behavioral challenges.
- 3. Personalized Care Plans:**
Develop individualized care plans that address the specific needs of dementia patients at each stage of the disease.
- 4. Caregiver Wellness:**
Explore strategies to maintain caregiver health and well-being, preventing burnout.
- 5. Certification Pathway:**
Understand how this seminar serves as the first step toward Certified Dementia Practitioners (CDP) certification through the NCCDP.
